Mumbai, 30 May 2017

Satra Properties (India) Limited

Notes to the consolidated financial statements

for the year ended 31 March 2017

(Currency: Indian Rupees)

1 Company overview:

The Company was incorporated on 30 May 1983 as Express Leasing Limited. The name of the Company was changed to Satra Properties (India) Limited ('the Company') on 8 December 2005. The Company and its subsidiaries are engaged in the business of real estate development and trading in properties and transferable development rights.

1.1 Principles of consolidation:

The consolidated financial statements relate to the Company and all of its subsidiary companies and companies controlled, that is, companies over which the Company exercises control / joint control over ownership and voting power and the associates and joint venture (herein after collectively referred to as the "Group"). The consolidated financial statements have been prepared on the following basis:

- a. The financial statements of the Company and its subsidiaries are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses after fully eliminating intra-group balances and intra-group transactions and resultant unrealized profits or losses in accordance with the Accounting Standard – 21 "Consolidated Financial Statements" prescribed u/s 133 of Companies Act, 2013 (the Act) read with rule 7 of the Companies (Accounts) Rules, 2014 issued by the Central Government.
- b. In case of foreign subsidiaries, revenue items are consolidated at the average exchange rate prevailing during the year. All monetary assets and liabilities are converted at the exchange rate prevailing at the end of the year and non-monetary assets and liabilities at the exchange rate prevailing on the date of the transaction. Any exchange difference arising on consolidation of integral foreign operation is recognised in the statement of profit and loss.
- c. Investments in subsidiaries are eliminated and differences between the costs of investment over the net assets on the date of the investment in subsidiaries are recognised as goodwill or capital reserve, as the case may be.
- d. The difference between the proceeds from disposal of investment in a subsidiary or in a company, controlled by the Company, and the proportionate carrying amount of its assets less liabilities as of the date of disposal is recognised in the consolidated statement of profit and loss as the profit or loss on disposal of investment in subsidiaries.
- e. Investment in associates, where the Company directly or indirectly through subsidiaries holds 20% or more of equity, are accounted for using equity method in accordance with Accounting Standard – 23 "Accounting for investments in associates in consolidated financial statements". The Company accounts for its share in the change of the net assets of the associates, post-acquisition after eliminating unrealised profits and losses resulting from transactions between the Company and its associates to the extent of its share, through its statement of profit and loss to the extent such change is attributable to the Associates' statement of profit and loss, based on available information. The difference between the cost of investment in the associates and the share of net assets at the time of acquisition of shares in the associates is identified in the financial statements as goodwill or capital reserve as the case may be.

Satra Properties (India) Limited

Notes to the consolidated financial statements (Continued)

for the year ended 31 March 2017

(Currency: Indian Rupees)

1 Company overview (Continued)

1.1 Principles of consolidation (Continued)

- f. If, under the equity method, the Company's share of losses of an associate equals or exceeds the carrying amount of the investment, the Company discontinues recognizing its share of further losses and the investment is reported at nil value. Additional losses are provided for to the extent that the Company has incurred obligations or made payments on behalf of the associate to satisfy obligations of the associate that the Company has guaranteed or to which the Company is otherwise committed. If the associate subsequently reports profits, the Company resumes including its share of those profits only after its share of the profits equals the share of net losses that have not been recognised.
- g. Goodwill on consolidation is amortised over a period of 10 years from the date of acquisition/investment.
- h. As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Company's standalone financial statements.

The list of subsidiary companies which are included in the consolidated financial statements are as under:

Name of the Company	Country of incorporation	% holding
Satra Property Developers Private Limited	India	100%
Satra Buildcon Private Limited	India	51%
Satra Lifestyles Private Limited	India	100%
Satra Estate Development Private Limited	India	100%
Satra Infrastructure and Land Developers Private Limited	India	100%
RRB Realtors Private Limited	India	87.5%
Satra Realty and Builders Limited	India	51%
Satra International Realtors Limited	United Arab Emirates	100%

The list of associate companies considered in the consolidated financial statements is as under:

Name of the Company	Country of Incorporation	% holding
C. Bhansali Developers Private Limited	India	20%

Investments other than in Subsidiaries and Associates are accounted as per Accounting Standard 13 – “Accounting for Investments”.

Satra Properties (India) Limited

Notes to the consolidated financial statements (*Continued*)

for the year ended 31 March 2017

(Currency: Indian Rupees)

2. Summary of significant accounting policies:

The accounting policies set out below have been applied consistently to the periods presented in these financial statements.

2.1 *Basis of preparation of consolidated financial statements:*

The consolidated financial statements have been prepared and presented on the historical cost convention on accrual basis and comprises mandatory accounting standards as prescribed u/s 133 of Companies Act, 2013 (the Act) read with rule 7 of the Companies (Accounts) Rules, 2014, the provision of the Act (to the extent notified). Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policies hitherto in use.

2.2 *Current / Non-current classification:*

The assets and liabilities are classified into Current or Non-current.

An asset is classified as current when it satisfies any of the following criteria:

- (a) it is expected to be realised in, or is intended for sale or consumption in, the entity's normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is expected to be realised within twelve months after the balance sheet date; or
- (d) it is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the balance sheet date.

All other assets are classified as non-current.

A liability is classified as current when it satisfies any of the following criteria:

- (a) it is expected to be settled in, the entity's normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is due to be settled within twelve months after the balance sheet date; or
- (d) the Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification..

All other liabilities are classified as non-current.

Operating cycle

Based on the nature of services and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 3 to 4 years for the purpose of current / non-current classification of assets and liabilities.

Satra Properties (India) Limited

Notes to the consolidated financial statements (*Continued*)

for the year ended 31 March 2017

(Currency: Indian Rupees)

2. Summary of significant accounting policies (*Continued*)

2.3 Use of Estimates:

The preparation of consolidated financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make judgments, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses and the disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognized prospectively in current and future periods.

2.4 Inventories:

Direct expenses like cost of land, site labour cost, material used for project construction, project management consultancy, costs for moving the plant and machinery to the site and general expenses incurred specifically for the respective project like insurance, design and technical assistance, borrowing costs and construction overheads are taken as the cost of the construction work-in-progress.

Material at site comprises of building material, components and stores and spares.

Stock-in-trade comprises of completed projects that are unsold.

Inventories are valued as lower of cost and net realizable value. Cost is determined on the first in first out ('FIFO') basis. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

2.5 Revenue recognition:

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured.

Income from real estate sales is recognized on the transfer of all significant risks and rewards of ownership to the buyers and it is not unreasonable to expect ultimate collection and no significant uncertainty exists regarding the amount of consideration. However if, at the time of transfer substantial acts are yet to be performed under the contract, revenue is recognized on proportionate basis as the acts are performed, i.e., on the percentage of completion basis.

Revenue from constructions contracts, where the outcome can be estimated reliably, is recognised under the percentage of completion method by reference to the stage of completion of the contract activity. The stage of completion is measured by calculating the proportion that costs incurred to date bear to the estimated total costs of a contract.

Unbilled work-in-progress valued at lower of cost ad net realizable value up-to the stage of completion. Cost includes direct material, labour cost and appropriate overheads

Determination of revenues under the percentage of completion method necessarily involves making estimates by the management some of which are of a technical nature, concerning, where relevant, the percentages of completion, costs to completion, the expected revenues from the project/activity and the foreseeable losses to completion. The estimates of cost are periodically reviewed by the management and the effect of changes in estimates is recognised in the period such changes are recognised. When the total project cost is estimated to exceed total revenues from the project, the loss is recognized immediately.

Satra Properties (India) Limited

Notes to the consolidated financial statements (*Continued*)

for the year ended 31 March 2017

(Currency: Indian Rupees)

Revenue from trading activity, property as well as Transferable Development Rights (TDR), is recognized when significant risk and rewards of the property/TDR are transferred to the buyer, as demonstrated by transfer of physical possession and transfer of the title in the property/TDR.

In view of the nature of service rendered, revenue is recognized provided the consideration is reliably determinable and no significant uncertainty exists regarding the amount of consideration.

Interest income is recognized on time proportion basis.

Dividend income is recognized when the right to receive dividend is established.

2.6 *Fixed assets and depreciation / amortisation and capital work-in-progress:*

Tangible assets

Tangible fixed assets are carried at cost of acquisition or construction less accumulated depreciation and/or accumulated impairment loss, if any. The cost of an item of tangible fixed asset comprises its purchase price, including import duties and other non-refundable taxes or levies and any directly attributable cost of bringing the asset to its working condition for its intended use; any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditures related to an item of tangible fixed asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Depreciation is provided on the written down value method. The rates of depreciation are calculated as prescribed in Schedule II to the Companies Act, 2013. If the management's estimate of the useful life of a fixed asset at the time of acquisition of the asset or of the remaining useful life on a subsequent review is shorter than that envisaged in the aforesaid Schedule II, depreciation is provided at a higher rate based on the management's estimate of the useful life/remaining useful life. Depreciation is provided on a pro-rata basis i.e. from the date on which asset is ready for use.

Plant and equipment and furniture and fixtures, costing individually Rs 5,000 or less, are depreciated fully in the year of purchase.

A fixed asset is eliminated from the financial statements on disposal or when no further benefit is expected from its use and disposal.

2.7 *Foreign currency transactions:*

Foreign exchange transactions are recorded at the spot rates on the date of the respective transactions. Exchange differences arising on foreign exchange transactions settled during the year are recognized in the statement of profit and loss of the year.

Monetary assets and liabilities denominated in foreign currencies as at the balance sheet date are translated at the closing exchange rates on that date; the resultant exchange differences are recognized in the statement of profit and loss. Non-monetary asset such as investments in equity shares, etc. are carried forward in the balance sheet at costs.

Investments:

Investments that are readily realisable and intended to be held for not more than a year from the date of acquisition are classified as current investments. All other investments are classified as long-term investments. However, that part of long term investments which is

Satra Properties (India) Limited

Notes to the consolidated financial statements (*Continued*)

for the year ended 31 March 2017

(Currency: Indian Rupees)

expected to be realized within 12 months after the reporting date is also presented under 'current assets' as "current portion of long term investments" in consonance with the current / non-current classification scheme of Schedule III.

Long-term investments (including current portion thereof) are carried at cost less any other-than-temporary diminution in value, determined separately for each individual investment.

Any reductions in the carrying amount and any reversals of such reductions are charged or credited to the statement of profit and loss.

Direct expenses like cost of land, site labour cost, material used for project construction, project management consultancy, borrowing cost and costs for moving the plant and machinery to the site and general expenses incurred specifically for the respective project like insurance, design and technical assistance, and construction overheads are taken as the cost of the project.

Investment property under construction:

Profit or loss on sale of investments is determined on the basis of weighted average carrying amount of investments disposed off.

Property that is being constructed for future use as investment property is accounted for as Investment property under construction until construction or development is complete.

Investment property under construction represents the cost incurred in respect of areas under construction of the real estate development projects less impairment losses, if any.

2.9 Employee benefits:

(a) Short term employee benefits:

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries and wages, leave salary etc. and the expected cost of ex-gratia are recognized in the period in which the employee renders the related service.

(b) Post-employment benefits:

Defined contribution plans:

The Group makes specified monthly contributions towards employee provident fund. The Group's contribution paid / payable under the schemes is recognized as an expense in the statement of profit and loss during the period in which the employee renders the related service.

Defined benefit plan:

The Group's gratuity benefit scheme is a defined benefit plan. The Group's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any plan assets is deducted.

Satra Properties (India) Limited

Notes to the consolidated financial statements (*Continued*)

for the year ended 31 March 2017

(Currency: Indian Rupees)

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on government securities as at the balance sheet date.

When the calculation results in a benefit to the Group, the recognized asset is limited to the net total of any unrecognized actuarial losses and past service costs and the present value of any future refunds from the plan or reductions in future contributions to the plan.

Actuarial gains and losses are recognized immediately in the statement of profit and loss.

2.10 *Borrowing costs:*

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are treated as direct cost and are considered as part of cost of such assets. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale. Capitalisation of borrowing costs is suspended in the period during which the active development is delayed beyond reasonable time due to, other than temporary interruption. All other borrowing costs are charged to the statement of profit and loss as incurred.

2.11 *Operating lease:*

Lease rentals in respect of assets acquired on operating leases are recognized in the statement of profit and loss on a straight line basis over the lease term.

2.12 *Earnings per share (EPS):*

The basic EPS is computed by dividing the net profit attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding during the reporting period. Diluted EPS is computed by dividing the net profit attributable to the equity shareholders for the year by the weighted average number of equity and dilutive equity equivalent shares outstanding during the year, except where the results would be anti-dilutive.

2.13 *Taxation:*

Income tax expense comprises of current income tax and deferred tax charge or credit.

Current tax provision is made annually based on the tax liability computed in accordance with the provisions of the Income Tax Act, 1961.

The deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the period) and the corresponding deferred tax liabilities or assets are recognized using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in future; however; where there is

Satra Properties (India) Limited

Notes to the consolidated financial statements (*Continued*)

for the year ended 31 March 2017

(Currency: Indian Rupees)

unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognized only if there is a virtual certainty of realization of such assets. Deferred tax assets are reviewed at each balance sheet date and written down or written up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realized.

2.14 *Impairment of assets:*

The Group assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Group estimates the recoverable amount of the asset. The recoverable amount is the greater of the net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value based on an appropriate discount factor. If such recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost.

2.15 *Provisions and contingent liabilities:*

The Group creates a provision where there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible or a present obligation that may, but probably will not require an outflow of resources. When there is a possible obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Contingent assets are not recognized in the financial statements.

2 Rights, preferences and restrictions attached to shares

Equity shares :

The Company has only one class of equity shares having a par value of Rs 2 each. Each holder of equity share is entitled to one vote per share. The Company declares and pays dividends in Indian rupees. The dividend proposed by the board of directors is subject to the approval of the shareholders in the ensuing annual general meeting. During the year ended 31 March 2017, the Company has proposed final dividend of Rs. 0.10 per equity share (2016: final dividend of Re. 0.10 per equity share). In the event of liquidation of the Company, the holders of the equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to their shareholding.

27. Commitments

	2017	2016
Consideration payable for acquiring Joint Development Rights [Non-monetary component]	Amount Unascertained	Amount Unascertained

The Company's subsidiary has entered into Joint Development Agreement (JDA) with a developer for development and construction of its project situated at Bandra, Mumbai. According to the said JDA, the Company has agreed to hand over 50% of permissible built-up area in the said project to the developer, after receiving the occupation certificate from the statutory authority. However, the actual built-up area to be constructed may vary subject to getting various regulatory compliance and approvals.

Since the final constructed area being unascertained, the value/ cost of construction attributable to such built-up area to be handed over on receiving of occupation certificate remain unascertained.

Satra Properties (India) Limited

Notes to the consolidated financial statements (Continued)

for the year ended 31 March 2017

(Currency: Indian Rupees)

28. Segment reporting

The Group is operating in the real estate and construction industry and has only domestic sales. The Group has only one reportable business segment, which is real estate development and trading in properties and transferable development rights and only one reportable geographical segment. Accordingly, these consolidated financial statements are reflective of the information required by the Accounting Standard 17 on 'Segment Reporting'.

29. Leases

Operating lease

- a) The Group has taken a commercial property on cancellable operating lease during the year as well as previous year.
- b) The lease agreement provides for an option to the Group to renew the lease period for certain properties and not for other properties. There are no exceptional/restrictive covenants in the lease agreements.

30. Disclosure for the details of Specified Bank Notes (SBN) held and transacted during the period from November 08, 2016 to December 30, 2016 as per Ministry Of Corporate Affairs notification Dated March 30, 2017 as provided in the Table below:-

Particulars	SBN's (Rs.)	Other denomination notes (Rs.)	Total (Rs.)
